

Feedback for forms

- things need to be indicate/improve in the later stage

• Oprichten

- **General questions:(for almost all the forms)**

- Not sure which are the "must" questions, which are not "must" answer questions. also i hope there can be a function that if the "must answered" question is not answered, the client will be guided automatically back to the place they need to fill in
- can we also add a condition in the percentage of shares that the shareholders will hold? (sum =100%)
- for natural person form, ideally, we first ask if you have BSN number, if not then we skip the BSN number questions. and they only need to fill in the buitenland woonadres and then **upload the utility bills**
- and then we need to ask if they have geregistreerd woonadres in Nederland, if they have then they don't need to fill in the address otherwise they need to fill in the buitenland woonadres and **upload the utility bills**

(one step further: when export the form, it needs to be an editable pdf and even the client do not need to fill in the address, still has that part, we will fill it in after checking in our backoffice system.)

- for boekhouder/accountant question
 - if this is for "AandelenXpress" client, then it should be the accountant/boekhouder/lawyer filling in the form, so maybe we can skip this part, instead we have this information when they request the dossier? → You can auto fill this with the information of the partner that they requested through
- I found a small issue: if the client changes one of the selected options, the form still keeps the fields and information related to the previously selected option, even though they are no longer relevant to the new selection.

not sure if it is because of the test version?

- **BV oprichten (Unieke vragenlijst voor standaard BV-oprichting.)**

- Currently if the client chooses "bestaande holding as the shareholder" then it will be impossible to choose natural person as one of the shareholders. so we also need to make it possible for the client to add natural person shareholders.
- also there is no percentage in this form when choosing multiple shareholders.

- **BV + Holding oprichten Uitgebreide flow voor holding + werkmaatschappij**

- General questions:
 - if the client would like to have more than new 1 holdings and more than 1 working bvs, how can they fill in this form?

will it be possible to ask the client how many new holdings / working will be established?

- Aanvraagtype
 - add a short explanation that natural person can also be one of the shareholders in holding and/of working

- Oprichting document (Holding)

- when choosing "Adres van de holding is anders dan het woonadres van de aandeelhouder(s)", still need to choose "Zelfde woonadres als welke aandeelhouder?".

Zelfde woonadres als welke aandeelhouder? needs to be skip if the address is a rented one

- Oprichting document (working)

- when choosing "Adres van de holding is anders dan het woonadres van de aandeelhouder(s)", still need to choose "Zelfde woonadres als welke aandeelhouder?".

Zelfde woonadres als welke aandeelhouder? needs to be skip if the address is a rented one

- bestaande holding

- i didn't really get why we have this form, i think if it is besttande holding,

- Rechtspersoon

- for "nieuw op te rechten holding"
 - we cannot ask the KVK number since it has not been established
 - we cannot ask the client to upload any files there since the new holding is waiting to be established
 - we can skip UBO question and bestuurder question? since we already asked the bestuurder and the shares of the shareholder in oprichting document (holding)
 - we only needs to ask, which nieuw op te rechten holding & name (because we need to ask them how many new holdings and new working bvs they are going to establish)

- **Holding oprichten Unieke vragenlijst voor losse holding-oprichting.**

- NO questions besides the general questions

•

•

- **Omzetten (eenmanszaak of vof naar BV of BV + holding**

- **general questions**

- for natural person form, ideally, we first ask if you have BSN number, if not then we skip the BSN number questions. and they only need to fill in the buitenland woonadres and then **upload the utility bills**
- and then we need to ask if they have geregistreerd woonadres in Nederland, if they have then they don't need to fill in the address otherwise they need to fill in the buitenland woonadres and **upload the utility bills**

(one step further: when export the form, it needs to be an editable pdf and even the client do not need to fill in the address, still has that part, we will fill it in after checking in our backoffice system.)

- for boekhouder/accountant question
 - if this is for "AandelenXpress" client, then it should be the accountant/boekhouder/lawyer filling in the form, so maybe we can skip this part, instead we have this information when they request the dossier? → You can auto fill this with the information of the partner that they requested through
- can we add a short form EMZ/VOF information
 - Name of EMZ/VOF
 - KVK number of EMZ/VOF
 - KVK-uittreksel eenmanszaak/VOF
 - statutory zetel of EMZ/VOF
 - owner
 - of EMZ - natuurlijke personen
 - OR owners of VOF (natuurlijke personen/rechtspersonen)- natuurlijke personen/rechtspersonen (same as the oprichten form). And we need to ask how many shares they own for each owners in the VOF
 - doel van de EMZ/VOF
- for oprichting document (werkmij)
 - question "Zelfde woonadres als welke aandeelhouder?" can be skip
 - to make it more clear for the client i think we need to change "aandeelhouder(s)" into "owner of the Eenmanszaak"
 - for this one we need to unblock the "+Aandeelhouder" because the enig aandeelhouder of the new bv can only be the owner of the eenmanszaak. and if we add the form of the EMZ/VOF then we can directly skip this question
 - Doel van de BV and KVK inschrijving and detailhandel, groothandel and personeel parts need to skip
- **Eenmanszaak naar BV oprichten EMZ-route met specifieke documenten en regels.**
 - no other questions besides the general questions

- **VOF naar BV oprichten VOF-route met eigen vragen en documentupload.**
 - same for the general questions
 - UBO upload part: can only upload 1 file, but we need multiple files to be uploaded here, since probably there will be more than one UBO in a VOF, will be better if this is also moved to the VOF form part
- **Eenmanszaak naar BV + Holding EMZ-route met BV + Holding flow en omzettingdocumenten.**
 - Aanvraagtype:
 - need to skip the question here, can only have **one** new holding and the new holding be the shareholder of the working bv
 - oprichting document (holding)
 - Wordt de holding eigenaar van nog op te richten BV's? need to skip this question
 - for this one we need to uncheck the "+Aandeelhouder" because the enig aandeelhouder of the new bv can only be the owner of the eenmanszaak. and if we add the form of the EMZ then we can directly skip this question
 - Bestuurders zijn dezelfde personen als de aandeelhouders. need to skip the question and just one reminder "zelfde van de owner of the EMZ"
 - need to add the "address" question, three options: 1. zelfde woonadres van de owner of the EMZ; 2. zelfde adres van de EMZ; 3. anders (then need to upload the rental agreement)
 - oprichting document (werkmaatschappij)
 - we don't need any information besides **the name of the new bv, telefoon number, email address**
 - need a reminding text (what the holding will be the sole shareholder of the werkmaatschappij)
 - omzettingdocumenten (EMZ)
 - should be divided into three parts:
 - 1. for both holding and working
 - Verzendbewijs intentieverklaring (Belastingdienst)
 - Bewijs van ontvangst intentieverklaring
 - Intentieverklaring
 - Geleideformulier intentieverklaring
 - 2. Inbrengbeschrijving (holding)
 - 3. Inbrengbeschrijving (werkmaatschappij)

- **VOF naar BV + Holding VOF-route met BV + Holding flow en omzettingsdocumenten.**

- Aanvraagtype:

- After we add the VOF form , for the holding structure, we need to ask how many holding BVs should be established. The answer should be either:

i think the question could be phrased as follows: Will all owners of the VOF establish one holding BV together, or will each owner establish their own separate holding BV?

- one holding BV jointly established by all owners of the VOF, or
- separate holding BVs for each owner of the VOF.
- need to skip the question here, can only have new holding (s) and the new holding(s) be the shareholder of the working bv
- optichting document (holding)
 - same as the general questions
 - if there are more than 1 holding bvs will be established, then we also need to ask each holding for the same information
- oprichting document (werkmaatschappij)
 - same as the general questions
 - should be divided into three parts:
 - 1. for both holding and working
 - Verzendbewijs intentieverklaring (Belastingdienst)
 - Bewijs van ontvangst intentieverklaring
 - Intentieverklaring
 - Geleideformulier intentieverklaring
 - 2. Inbrengbeschrijving (holding)
for each holding
 - 3. Inbrengbeschrijving (werkmaatschappij)
- UBO uittreksel VOF should be moved to VOF form, and should be able to upload more than 1 files
